PROJECTS

- **FundNext** — https://fund-next-r.vercel.app/
  Architected and deployed a modern, high-performance web platform using Next.js and React, ensuring optimal responsiveness and user engagement.

- **Orcary** — https://orcary-mb.vercel.app/
  Engineered a robust customer relationship management system that enhanced client interaction and streamlined internal workflows.

- **Fan X** — https://fanx-comp.vercel.app/
  Developed a scalable CRM solution with React and Bootstrap, emphasizing performance, intuitive UX, and maintainable code structure.

- **CMS** — www.jetnetixsolutions.com/systemize_dev/login
  (admin@gmail.com | pass:1234)
  Delivered a fully functional content and customer management platform built with HTML, CSS, JavaScript, and Bootstrap, featuring a clean, grid-based UI layout.

- **NexisFlow** — www.jetnetixsolutions.com/NexisFlow/
  Customized a visually polished CRM application tailored to specific client requirements using HTML, CSS, and Bootstrap, focusing on usability and brand alignment.

- **AVR** — www.jetnetixsolutions.com/avr/
  Crafted an interactive frontend with HTML, CSS, JavaScript, and Bootstrap, incorporating AOS animations for smooth transitions and enhanced user experience.

- **Blockstar** — https://blockstar.netlify.app/
  Built a dark-themed, fully responsive website with HTML, CSS, and JavaScript, optimized for modern aesthetics and device adaptability.
